INDEX TO VOLUME 64

Abrasion, Experimental, of pebbles, pt. 2. Rolling by current (Ph. H. Kuenen), 336

Adams, R. M. Review of: Excavations at Star Carr. By J. G. D. Clark, 308

Alaska, Cuspate spits of St. Lawrence Island: a discussion (W. Armstrong Price and Basil W. Wilson), 94

Albite crystals, Observations on heat-treated authigenic microcline and (Yehuda Baskin), 219

Allison, Ira S., William H. Emmons, George A. Thiel, and Clinton R. Stauffer. Geology—principles and processes. Review by Paul R. Shaffer, 304

Analysis and description of environments of sedimentation, pt. 1. The relation of sediment-size parameters to current-wave systems and physiography, Trend surfaces: Their application to (Robert L. Miller), 425

and distribution of the properties of packing in sand-size sediments, pt. 1. On the measurement of packing in sandstones (J. S. Kahn), 385

and distribution of packing properties in sand-sized sediments, pt. 2. The distribution of the packing measurements and an example of packing analysis (J. S. Kahn), 578

of two-dimensional orientation data, The (Joseph R. Curray), 117

Anderson, Richard C., and Leland Horberg. *Bedrock topography and Pleistocene glacial lobes in central United States*, 101

Antevs, Ernst. Review of: Danmarks Geol. Undersögelse, II Raekke, no. 80, 96.

Arithmetic, Some vector and, operations on two-dimensional orientation variates, with applications to geological data (Howard J. Pincus), 533

Atlantic Ocean, Oligocene and Miocene temperatures of the equatorial and subtropical (Cesare Emiliani), 281

Authigenic feldspars, A study of (Yehuda Baskin), 132

microcline and albite crystals, Observations on heat-treated (Yehuda Baskin), 219

Barth, T. F. W. Review of: Gmelins Handbuch der anorganischen Chemie, 8th ed. Published by von Gmelin-Institut, 196

Basal Pennsylvanian sediments in the Eastern Interior Basin, pt. 1. Cross-bedding, Sources of (Paul Edwin Potter and Raymond Siever), 225

Pennsylvanian sediments in the Eastern Interior Basin, pt. 2. Sedimentary petrology, Sources of (Raymond Siever and Paul Edwin Potter), 317

Pennsylvanian sediments in the Eastern Interior Basin, pt. 3. Some methodological implications, Sources of (Paul Edwin Potter and Raymond Siever), 447

Baskin, Yehuda. *Observations on heat-treated authigenic microcline and albite crystals*, 219

A study of authigenic feldspars, 132

Bateman, Alan M. Edited: Fiftieth Anniversary Volume of "Economic Geology," 1905–1955. Review by A. F. Hagner, 630

Beaty, Chester B. *Landslides and slope exposure*, 70

Bedrock topography and Pleistocene glacial lobes in central United States (Leland Horberg and Richard C. Anderson), 101

Behre, Charles H., Jr. Review of: Uran. By E. Kohl, 298

Bennington, Kenneth O. *Role of shearing stress and pressure in differentiation as illustrated by some mineral reactions in the system MgO-SiO_2-H_2O*, 558

Brown, Charles N. *The origin of caliche on the northeastern Llano Estacado, Texas*, 1

Brucker, Roger W., and Joe Lawrence, Jr. The caves beyond: the story of the Floyd Collins' Crystal Cave expedition. Review by Leland Horberg, 296

Bryan, Margaret, and John P. Miller. Review of: Contribution à la chronologie du Pleistocène et des formes du relief en Belgique. By F. Gullentops, 530

Burwell, Edward B., Jr. Review of: Geology in engineering—a systematic account of geology from the viewpoint of its application in civil engineering. By John R. Schultz and Arthur B. Cleaves, 306

Caliche, The origin of, on the northeastern Llano Estacado, Texas (Charles N. Brown), 1

California. *Creep measurements in igneous rocks* (C. Lomnitz), 473

Formation of small ventifacts (Charles G. Higgins), 506

Landslides and slope exposure (Charles B. Beaty), 70

Trend surfaces: their application to analysis and description of environments of sedimentation, pt. 1. The relation of sediment-size parameters to current-wave systems and physiography (Robert L. Miller), 425

California, southern, A submarine slope of (K. O. Emery and R. D. Terry), 271

Canada, Quebec. *Large nivation hollows near Knob Lake, Quebec* (Eric P. Henderson), 607

Carbonate, siliceous, rocks, A thermochemical study of equilibrium relations during metamorphism of (Wilford F. Weeks), 245

Carolina bays and the shapes of eddies. By C. Wythe Cooke. Review by Frank A. Melton, 301
The caves beyond: the story of the Floyd Collins' Crystal Cave expedition. By Joe Lawrence, Jr., and Roger W. Brucker. Review by Leland Horberg, 296
